Pondok Pesantren Al-Ihsan
Religious Education

COMPETENCE

- Web Development (HTML, CSS, JavaScript, PHP)
- Frontend Development (React, Tailwind CSS)
- Backend Development (Laravel, MySQL)
- Problem Solving
- Teamwork
- AI-Assisted Development

PROFILE

I am a Grade XI student majoring in Software Engineering (RPL) at SMKN 4 Bandung with a strong interest in Fullstack Web Development.

IMy interests focus on developing web applications using HTML, CSS, JavaScript, and PHP, along with frameworks such as Laravel, Tailwind CSS, and React.

I also actively utilize AI technologies to support my learning and web development process.

I have experience in building CRUD-based systems, managing MySQL databases, and working both independently and in teams.
